

# CABELL COUNTY BOARD OF EDUCATION

## Steve Freeman

Transparency • Trust • Student Success

Candidate Platform & Community Priorities

Building trust. Putting students first. Supporting teachers. Spending wisely.

### Priorities

- Restore public trust in public education through consistent leadership and community engagement.
- Increase transparency in district decision-making, budgeting, and priorities—parents and taxpayers deserve clarity.
- Put students first in every decision, using proven and current research-based practices.
- Protect classroom teaching and learning by reducing unnecessary interference and distractions for educators.
- Recruit and retain high-quality teachers by improving support, working conditions, and long-term stability.

### Commitments

- Treat teachers like professionals and fight for competitive pay—especially through state-level advocacy.
- Strengthen partnerships with the City of Huntington, Marshall University, and local businesses to expand student opportunities.
- Ensure the Woody Williams Center aligns programs with local workforce needs and high-demand career paths.
- Provide safe, fair schools with real accountability—no student should lose learning time due to disruptions.
- Be strong stewards of taxpayer dollars: maximize effectiveness and focus spending on students and classrooms.

**My promise:** decisions that are transparent, student-centered, and rooted in respect for families, teachers, and taxpayers.
